

**Environmental Policy Statement**

North Wales Landscape Contractors Ltd is committed to the adoption of environmentally responsible policies and practice, together with the reviews of both its performance and areas for further improvements in reducing our impact on the environment.

We recognise, both as a company and as individual members of the company, our responsibility to the environment. Through continual improvement in our systems, processes and materials we aim to minimise the impact on the environment of our work and ensure that, as a minimum, we comply with all relevant environmental legislation and approved codes of practice.

We have set objectives and targets, for improvement and prevention of pollution. We will provide all employees with the training and resources required to meet our objectives. This is communicated to all persons working for or on behalf of the company and is available to the public.

We recognise this is a long term commitment and therefore continually review our objectives, targets, policies and procedures at least annually to reduce the environmental impact and we will undertake annual audits.

A handwritten signature in black ink, appearing to read "J Williams".

John Williams
